

DECLARATION OF CONFORMITY (EU)

No. 20533/2025

1. Product Name and Model:

Rechargeable Pulse Lighter / Electric Arc Lighter

Model No.: ARC-2001

2. Importer:

VATSPEEDSL

Calle Antonio Salvador N99.1, 28026 Madrid, Spain

Email: services@vatspeed-eu.com

3. This declaration of conformity is issued under the sole responsibility of the importer:

VATSPEEDSL

Calle Antonio Salvador N99.1, 28026 Madrid, Spain

4. Product Name and Photo:

Rechargeable Pulse Lighter / Electric Arc Lighter

5. Product complies with the directives:

- General Product Safety Regulation (GPSR) EU 2019/1020
- Regulation (EU) 2023/988 on general product safety
- Low Voltage Directive (LVD) 2014/35/EU
- Electromagnetic Compatibility (EMC) Directive 2014/30/EU
- RoHS Directive 2011/65/EU – Restriction of Hazardous Substances

- REACH Regulation EC No 1907/2006 (chemical safety)
- Battery Directive 2006/66/EC (for integrated rechargeable battery)

6. Product complies with the standards:

- EN ISO 9994:2019 – Lighters – Safety specification (for general lighter safety including flame height, durability, drop resistance, temperature resistance)
- EN 13869:2016 – Lighters – Child safety specification (for child-resistant mechanism)
- EN 60335-1:2012+A15:2021 – Household and similar electrical appliances – Safety – General requirements (for electrical safety of charging circuit and high-voltage arc generation)
- EN 55014-1:2021 – Electromagnetic compatibility – Requirements for household appliances – Emission
- EN 55014-2:2021 – Electromagnetic compatibility – Requirements for household appliances – Immunity
- EN 61000-3-2:2014 – Harmonics
- EN 61000-3-3:2013 – Flicker
- EN 62133-2:2017 – Secondary cells and batteries containing alkaline or other non-acid electrolytes – Safety requirements for portable sealed secondary cells (for Li-ion battery safety)
- IEC 62321 Series – Determination of six regulated substances (RoHS)
- ISO 9001:2015 – Quality management systems

7. Additional Notes:

This rechargeable pulse lighter (electric arc lighter) has been tested and found to comply with the applicable EU directives and harmonized standards. It operates by generating a high-voltage electric arc between two electrodes, eliminating the need for butane gas or flint. The product meets requirements for:

Lighter Safety (EN ISO 9994:2019):

- Arc/flame height control and stability
- Drop resistance (1.5m drop test)
- Temperature resistance and durable construction

- Electrical arc ignition reliability

Child Safety (EN 13869:2016):

- Child-resistant mechanism to prevent unintended ignition by children under 51 months
- Auto-reset feature after each ignition
- Compliance with Commission Decision 2006/502/EC (no novelty/excessive attraction design for children)

Electrical Safety (LVD & Battery Directive):

- Safe charging circuit (USB-C / micro USB input, 5V DC, <500mA)
- Overcharge, over-discharge, and short-circuit protection for integrated Li-ion battery (3.7V, capacity as per product label)
- High-voltage arc generation (typical output: 5kV-15kV) – low current, low risk of electric shock

Chemical Safety (REACH & RoHS):

- No butane gas or fuel – no REACH fuel substance restrictions apply
- All materials comply with REACH SVHC restrictions and RoHS heavy metal limits

WARNING:

This device produces a high-voltage electric arc. Do not touch the arc during operation. Do not use near flammable liquids, gases, or explosives. Keep away from children. Charge only with approved USB power sources.
